Index

IEE Proceedings A covering Physical Science, Measurement and Instrumentation, Management and Education, and Reviews
Vol. 132, 1985

ABBREVIATIONS

- p paper, address or lecture
- d discussion on a paper
- a abstract of paper or address
- e errata
- s synopsis of a paper published in full in another Part of the IEE Proceesings

Author index

A

Akazaki, M., Hara, M., Yashima, M., and Tsutsumi, T. see Hara, M.
Al-Habib, A.M.H., and Deeley, E.M. see Deeley, E.M.
Allen, P.H.G. Some aspects of transformer core loss p113
Anderson, A.F. William Henley, pioneer electrical instrument maker and cable manufacturer, 1813 to 1882 (Lecture) p249
Antoine, P., Dimoff, K., and Vijh, A.K. see Dimoff, K.
Apsley, N., Backhouse, P., and Smart, A. see Backhouse, P.
Au, S., Santiago, J., and Smy, P.R. Analysis of the arc formed along the surface of a flat plate immersed in a laminar flow of gas e263

B

Backhouse, P., Apsley, N., and Smart, A. Measurement of dielectric loss in thin parallel-sided samples using an untuned cavity e000
Backhouse, P., Apsley, N., and Smart, A. Measurement of dielectric loss in thin parallel-sided samples using an untuned cavity p280
Baker, J.W. When the engineering has to stop p193
Bates, R.H.T., Minard, R.A., and Robinson, B.S. see Minard, R.A.
Bates, R.H.T., and Seagar, A.D. see Seagar, A.D.
Betts, P.J. Nickel and chromium plated terminals in current transformer circuits p178
Blandford, S., and Hope, R.P. Systematic methods for the problem solving process with particular reference to design p199
Bompa, L., Mahdavi, J., Schaeffer, A., Velo, C., and Gatellet, J. see Mahdavi, J.
Bowden of Chesterfield, Lord The story of IFF (identification friend or foe) p435
Bowers, B. The first century of the Wiring Regulations p498
Briggs, B.F.N. By CNAA degrees p184
Brooke, R.C.R. Distribution diary p533
Brown, C.N. Charging for electricity in the early years of electricity supply p513
Bumby, J.R., Clarke, P.H., and Forster, I. Computer modelling of the automotive energy requirements for internal combustion engine and battery electric-powered vehicles p265
Burcham, W.E. The development of centimetre AI p385
Burns, R.W. The history of television for public showing in cinemas in the United Kingdom p553
Burton, D.P. Marketing and sales co-operatives for electronic equipment manufacturers in a developing country: a feasibility study p321

C

Callaway, W.J. Relation of supervised work experience to academic study in CNAA first degree courses p109
Carrus, A. Marx circuit modified by adding a tail sphere gap to generate lightning impulses lasting a few microseconds p40
Casey, M.T. Nicholas Callan — priest, professor and scientist p491
Chalmers, B.J., and Deeley, E.M. see Deeley, E.M.
Ciric, I.R., and Mathur, R.M. Electromagnetic levitation of rotating cylinders p21
Clarke, P.H., Bumby, J.R., and Forster, I. see Bumby, J.R.
Cockburn, Sir Robert. The radio war p423
Cockcroft, J.D. Memories of radar research p327

D

Davies, E.J. Electroheat for industry p77
Davies, P.J., and Marsh, J.O. Ohm's law and the Schuster effect p525
Deeley, E.M., and Al-Habib, A.M.H. Magnetoresistive transducers for the measurement of magnetic tape speed p33
Deeley, E.M., and Chalmers, B.J. Surface impedance of saturating iron in travelling fields p171
Denbigh, P.L., Jones, B.F., and Mottram, D.A. Variation of efficacy with arc tube bore and current in a high-pressure sodium lamp p99
Dimoff, K., Antoine, P., and Vijh, A.K. Effects of enhanced heating by surface oxides on arc cathodes p301

E

Eastham, J.F., and Rodger, D. see Rodger, D.

F

Smy, P.R., Au, S., and Santiago, J. see Au, S.
Stanbury, H.J. An industry-based standards system for the measurement of power loss and apparent power of electrical sheet steel p129
Strange, P. Duplex telegraphy and the artificial line: the beginnings of system modelling p543
Strange, P. Two electrical periodicals: *The Electrician* and *The Electrical Review* 1880–1890 p574
Strange, P., and Phillips, V.J. see Phillips, V.J.
Symons, E.D.P. Two electrical book collections: The Ronalds and Thompson Libraries p582

T

Tassicker, O.J. Determination of the complex dielectric constant, electric field and conductivity at the boundary of ionised gas p45 e103
Tslaf, A.L. Theory of arc resistance of solid dielectrics p291
Tsutsumi, T., Hara, M., Yashima, M., and Akazaki, M. see Hara, M.

V

Velo, C., Mahdavi, J., Schaeffer, A., Bompa, L., and Gatellet, J. see Mahdavi, J.
Vijh, A.K., Dimoff, K., and Antoine, P. see Dimoff, K.

W

Walker, B.A., Smith, R.A., Hanbury-Brown, R., Mould, A.J., and Ward, A.G. see Smith, R.A.
Ward, A.G., Smith, R.A., Hanbury-Brown, R., Mould, A.J., and Walker, B.A. see Smith, R.A.
Waters, W.E. Electrical induction from distant current surges p94
Weedy, B.M. DC conductivity of Voltalit epoxy spacers in SF_6 p450
West, J.C. Address as President of the IEE: Forty years in control p1
Wheeler, C.B. Influence of space charge on field emission of electrons from spherical points p104

Y

Yashima, M., Hara, M., Tsutsumi, T., and Akazaki, M. see Hara, M.

Z

Zhan, Q., and Hammond, P. see Hammond, P.

Addresses

Finkelstein, L. Address as Chairman of the IEE Management & Design Division: By our work is the city established p9
Fishwick, W. Address as Chairman of the IEE SW Centre: Engineers of quality, needed certainly, but deserved, perhaps p181
Freeman, E.M. Address as Chairman of the IEE Science, Education & Technology Division: All SET for CAE p15
West, J.C. Address as President of the IEE: Forty years in control p1

Conference publication

List of papers presented at the IEE's weekend meetings on the history of electrical engineering p602

Full-wave computed tomography Part 4: Low-frequency electric current CT. A.D. Seagar and R.H.T. Bates p455

ANTENNAS

Theory of arc resistance of solid dielectrics. A.L. Tslaf p291

ARCING

Analysis of the arc formed along the surface of a flat plate immersed in a laminar flow of gas. S. Au, J. Santiago and P.R. Smy e263
Electric field measurements in long gap discharge using Pockels device. K. Hidaka and Y. Murooka p139

BATTERIES AND CELLS

Nicholas Callan — priest, professor and scientist. M.T. Casey p491

BREAKDOWN AND GAS DISCHARGES

Analysis of the arc formed along the surface of a flat plate immersed in a laminar flow of gas. S. Au, J. Santiago and P.R. Smy e263
Determination of the complex dielectric constant, electric field and conductivity at the boundary of ionised gas. O.J. Tassicker p45 e103
Effects of enhanced heating by surface oxides on arc cathodes. K. Dimoff, P. Antoine and A.K. Vijh p301
Electrification current and voltage on a cylindrical object in the presence of an ion flow field in an air stream. M. Hara, M. Yashima, T. Tsutsumi and M. Akazaki p59
The effect of atmospheric humidity on the corona extinction voltage of circular cylinders. J. Rungis p136

CABLES AND OVERHEAD LINES

Marx circuit modified by adding a tail sphere gap to generate lightning impulses lasting a few microseconds. A. Carrus p40

CALIBRATION

Nickel and chromium plated terminals in current transformer circuits. P.J. Betts p178

CIRCUIT BREAKERS AND CIRCUIT BREAKING

New means of measuring current in the vicinity of zero in an AC circuit breaker. J. Mahdavi, A. Schaeffer, C. Velo, L. Bompa and J. Gatellet p285

CIRCUIT THEORY AND DESIGN

The changing technology of electronic components and assemblies. A.D. Hawkins p311

COMPONENTS

The changing technology of electronic components and assemblies. A.D. Hawkins p311

COMPUTER APPLICATIONS

All SET for CAE. E.M. Freeman p15
Fast numerical method for calculation of electric and magnetic fields based on potential-flux duality. P. Hammond, M.C. Romero-Fuster and S.A. Robertson p84
Full-wave computed tomography Part 4: Low-frequency electric current CT. A.D. Seagar and R.H.T. Bates p455
Full-wave computed tomography. Part 3: Coherent shift-and-add imaging. R.A. Minard, B.S. Robinson and R.H.T. Bates p50
Reactive nonlinearities in transmission-line models. L.A. Newcombe and J.E. Sitch p95

COMPUTER SIMULATION

Computer modelling of the automotive energy requirements for internal combustion engine and battery electric-powered vehicles. J.R. Bumby, P.H. Clarke and I. Forster p265
Reactive nonlinearities in transmission-line models. L.A. Newcombe and J.E. Sitch p95

COMPUTER-AIDED DESIGN

All SET for CAE. E.M. Freeman p15

CONDUCTORS AND CONDUCTIVITY

DC conductivity of Voltalit epoxy spacers in SF_6. B.M. Weedy p450

CONTROL EQUIPMENT AND APPLICATIONS

Forty years in control. J.C. West p1

CONTROL SYSTEMS

Forty years in control. J.C. West p1

CONTROL THEORY

Forty years in control. J.C. West p1

DIELECTRIC MATERIALS

Determination of the complex dielectric constant, electric field and conductivity at the boundary of ionised gas. O.J. Tassicker p45 e103
Effects of enhanced heating by surface oxides on arc cathodes. K. Dimoff, P. Antoine and A.K. Vijh p301
Measurement of dielectric loss in thin parallel-sided samples using an untuned cavity. P. Backhouse, N. Apsley and A. Smart e000
Measurement of dielectric loss in thin parallel-sided samples using an untuned cavity. P. Backhouse, N. Apsley and A. Smart p280
Theory of arc resistance of solid dielectrics. A.L. Tslaf p291

DIGITAL INSTRUMENTATION

Theorems on power, mean and RMS values of uniformly sampled periodic signals. T.S. Rathore e98

DISCHARGES, ELECTRIC

Electric field measurements in long gap discharge using Pockels device. K. Hidaka and Y. Murooka p139

DISCHARGES, GAS

Analysis of the arc formed along the surface of a flat plate immersed in a laminar flow of gas. S. Au, J. Santiago and P.R. Smy e263
The effect of atmospheric humidity on the corona extinction voltage of circular cylinders. J. Rungis p136

DISTRIBUTION NETWORKS

Distribution diary. R.C.R. Brooke p533

EDDY CURRENTS

Complementary variational formulation for eddy-current problems using the field variables *E* and *H* directly. R.L. Ferrari p157
On certain properties of the electric vector potential in eddy-current problems. M.R. Krakowski p445
The use of transformations in applying boundary conditions to three-dimensional vector field problems. D. Rodger and J.F. Eastham p165

EDUCATION AND TRAINING

By CNAA degrees. B.F.N. Briggs p184
Engineers of quality, needed certainly, but deserved, perhaps. W. Fishwick p181
Relation of supervised work experience to academic study in CNAA first degree courses. W.J. Callaway p109
The cry for useless knowledge: education for a new Victorian technology. D.W. Jordan p587
When the engineering has to stop. J.W. Baker p193

ELECTROMAGNETIC THEORY

All SET for CAE. E.M. Freeman p15
Calculation of Poissonian fields by means of the method of tubes and slices. P. Hammond and Q. Zhan p149
Complementary variational formulation for eddy-current problems using the field variables *E* and *H* directly. R.L. Ferrari p157
Electromagnetic levitation of rotating cylinders. I.R. Ciric and R.M. Mathur p21
Fast numerical method for calculation of electric and magnetic fields based on potential-flux duality. P. Hammond, M.C. Romero-Fuster and S.A. Robertson p84
Magnetoresistive transducers for the measurement of magnetic tape speed. E.M. Deeley and A.M.H. Al-Habib p33
Nicholas Callan — priest, professor and scientist. M.T. Casey p491
On certain properties of the electric vector potential in eddy-current problems. M.R. Krakowski p445
Synthesis of electrical fields by optimisation of the shape of region boundaries. R. Palka p28
The use of transformations in applying boundary conditions to three-dimensional vector field problems. D. Rodger and J.F. Eastham p165

ELECTRON DEVICES

Influence of space charge on field emission of electrons from spherical points. C.B. Wheeler p104

ENGINEERING ADMINISTRATION AND MANAGEMENT

An essay in futurology: groups, networks and complexity in the open society. A.C. Robb p67
By our work is the city established. L. Finkelstein p9
Design for testability. p241
Design = quality. True or false?. p228
Engineers of quality, needed certainly, but deserved, perhaps. W. Fishwick p181
Marketing and sales co-operatives for electronic equipment manufacturers in a developing country: a feasibility study. D.P. Burton p321
The economics of innovation. C. Freeman p213
The evolution of a modern telecommunications network to the year 2000 and beyond. S. O'Hara p467
The management of innovation. p222
The technical review—engineering statements for investors. p481
William Henley, pioneer electrical instrument maker and cable manufacturer, 1813 to 1882. A.F. Anderson p249

HISTORY

ASV: the detection of surface vessels by airborne radar. R.A. Smith, R. Hanbury-Brown, A.J. Mould, A.G. Ward and B.A. Walker p359
Charging for electricity in the early years of electricity supply. C.N. Brown p513
D – 13: some personal memories of 24th–28th May 1944. M. Ryle p438
Development of radar for the Royal Navy 1935–44. J.D.S. Rawlinson p441
Distribution diary. R.C.R. Brooke p533
Duplex telegraphy and the artificial line: the beginnings of system modelling. P. Strange p543
Editorial: Historical Radar. E.H. Putley p325
H2S and the navigator. E.L. Killip p399
Historical note on H2S. A.C.B. Lovell p401
History of electrical engineering (Editorial). V.J. Phillips and P. Strange p489
History of fighter direction. N. Orgel p411

History of the electrical units and early standards. A.C. Lynch p564
List of papers presented at the IEE's weekend meetings on the history of electrical engineering. p602
Memories of radar research. J.D. Cockcroft p327
Nicholas Callan — priest, professor and scientist. M.T. Casey p491
Oboe: history and development. A.H. Reeves and J.E.N. Hooper p394
Ohm's law and the Schuster effect. P.J. Davies and J.O. Marsh p525
Optical, chemical and capillary oscillographs. V.J. Phillips p503
The changing technology of electronic components and assemblies. A.D. Hawkins p311
The cry for useless knowledge: education for a new Victorian technology. D.W. Jordan p587
The development of centimetre AI. W.E. Burcham p385
The first century of the Wiring Regulations. B. Bowers p498
The history of television for public showing in cinemas in the United Kingdom. R.W. Burns p553
The new H2Ss. J.B. Smith p404
The radio war. Sir Robert Cockburn p423
The story of IFF (identification friend or foe). Lord Bowden of Chesterfield p435
The work of TRE in the invasion of Europe. J.W.S. Pringle p340
Two electrical book collections: The Ronalds and Thompson Libraries. E.D.P. Symons p582
Two electrical periodicals: *The Electrician* and *The Electrical Review* 1880–1890. P. Strange p574
William Henley, pioneer electrical instrument maker and cable manufacturer, 1813 to 1882. A.F. Anderson p249

IMAGE PROCESSING

Full-wave computed tomography. Part 3: Coherent shift-and-add imaging. R.A. Minard, B.S. Robinson and R.H.T. Bates p50

INDUCTION MOTORS

Surface impedance of saturating iron in travelling fields. E.M. Deeley and B.J. Chalmers p171

INDUSTRIAL APPLICATIONS OF POWER

Electroheat for industry. E.J. Davies p77

INSTRUMENTATION AND MEASURING SCIENCE

An industry-based standards system for the measurement of power loss and apparent power of electrical sheet steel. H.J. Stanbury p129
Computer modelling of the automotive energy requirements for internal combustion engine and battery electric-powered vehicles. J.R. Bumby, P.H. Clarke and I. Forster p265
Error estimation in sampling digital wattmeters. F. Filicori, D. Mirri and M. Rinaldi p122
Magnetoresistive transducers for the measurement of magnetic tape speed. E.M. Deeley and A.M.H. Al-Habib p33
Measurement of dielectric loss in thin parallel-sided samples using an untuned cavity. P. Backhouse, N. Apsley and A. Smart e000
Measurement of dielectric loss in thin parallel-sided samples using an untuned cavity. P. Backhouse, N. Apsley and A. Smart p280
Nickel and chromium plated terminals in current transformer circuits. P.J. Betts p178
Optical, chemical and capillary oscillographs. V.J. Phillips p503
Optoelectronic instrument for contour comparison. A.H. Falkner p133
Theorems on power, mean and RMS values of uniformly sampled periodic signals. T.S. Rathore e98

INSULATORS AND INSULATION

DC conductivity of Voltalit epoxy spacers in SF_6. B.M. Weedy p450

IONISATION

Determination of the complex dielectric constant, electric field and conductivity at the boundary of ionised gas. O.J. Tassicker p45 e103
Electrification current and voltage on a cylindrical object in the presence of an ion flow field in an air stream. M. Hara, M. Yashima, T. Tsutsumi and M. Akazaki p59

LIGHTING

Variation of efficacy with arc tube bore and current in a high-pressure sodium lamp. P.L. Denbigh, B.F. Jones and D.A. Mottram p99

LIGHTNING AND LIGHTNING PROTECTION

Marx circuit modified by adding a tail sphere gap to generate lightning impulses lasting a few microseconds. A. Carrus p40

MAGNETIC DEVICES AND PROPERTIES

Magnetoresistive transducers for the measurement of magnetic tape speed. E.M. Deeley and A.M.H. Al-Habib p33
Some aspects of transformer core loss. P.H.G. Allen p113

MAGNETIC FIELDS

Fast numerical method for calculation of electric and magnetic fields based on potential-flux duality. P. Hammond, M.C. Romero-Fuster and S.A. Robertson p84
On certain properties of the electric vector potential in eddy-current problems. M.R. Krakowski p445
Surface impedance of saturating iron in travelling fields. E.M. Deeley and B.J. Chalmers p171

MATHEMATICAL TECHNIQUES

Calculation of Poissonian fields by means of the method of tubes and slices. P. Hammond and Q. Zhan p149
Fast numerical method for calculation of electric and magnetic fields based on potential-flux duality. P. Hammond, M.C. Romero-Fuster and S.A. Robertson p84
Synthesis of electrical fields by optimisation of the shape of region boundaries. R. Palka p28
Systematic methods for the problem solving process with particular reference to design. S. Blandford and R.P. Hope p199

MEASUREMENT AND MEASURING

An industry-based standards system for the measurement of power loss and apparent power of electrical sheet steel. H.J. Stanbury p129
Charging for electricity in the early years of electricity supply. C.N. Brown p513
Computer modelling of the automotive energy requirements for internal combustion engine and battery electric-powered vehicles. J.R. Bumby, P.H. Clarke and I. Forster p265
Error estimation in sampling digital wattmeters. F. Filicori, D. Mirri and M. Rinaldi p122
Forty years in control. J.C. West p1
Measurement of dielectric loss in thin parallel-sided samples using an untuned cavity. P. Backhouse, N. Apsley and A. Smart e000
Measurement of dielectric loss in thin parallel-sided samples using an untuned cavity. P. Backhouse, N. Apsley and A. Smart p280
New means of measuring current in the vicinity of zero in an AC circuit breaker. J. Mahdavi, A. Schaeffer, C. Velo, L. Bompa and J. Gatellet p285
Optical, chemical and capillary oscillographs. V.J. Phillips p503
Some aspects of transformer core loss. P.H.G. Allen p113
Variation of efficacy with arc tube bore and current in a high-pressure sodium lamp. P.L. Denbigh, B.F. Jones and D.A. Mottram p99

MODELLING

Duplex telegraphy and the artificial line: the beginnings of system modelling. P. Strange p543

MOTORS

Nicholas Callan — priest, professor and scientist. M.T. Casey p491

OPTOELECTRONICS

Optoelectronic instrument for contour comparison. A.H. Falkner p133

OVERVOLTAGES

Marx circuit modified by adding a tail sphere gap to generate lightning impulses lasting a few microseconds. A. Carrus p40

POWER TRANSMISSION AND DISTRIBUTION

Electrification current and voltage on a cylindrical object in the presence of an ion flow field in an air stream. M. Hara, M. Yashima, T. Tsutsumi and M. Akazaki p59

POWER UTILISATION AND INDUSTRIAL APPLICATIONS

Electroheat for industry. E.J. Davies p77

PRODUCTION ENGINEERING

Design for testability. p241
Design = quality. True or false?. p228
Systematic methods for the problem solving process with particular reference to design. S. Blandford and R.P. Hope p199
The changing technology of electronic components and assemblies. A.D. Hawkins p311
The economics of innovation. C. Freeman p213

PROJECT AND PRODUCTION ENGINEERING

Design = quality. True or false?. p228
The economics of innovation. C. Freeman p213
The evolution of a modern telecommunications network to the year 2000 and beyond. S. O'Hara p467
The management of innovation. p222

RADAR AND RADIONAVIGATION

ASV: the detection of surface vessels by airborne radar. R.A. Smith, R. Hanbury-Brown, A.J. Mould, A.G. Ward and B.A. Walker p359
D – 13: some personal memories of 24th–28th May 1944. M. Ryle p438
Development of radar for the Royal Navy 1935–44. J.D.S. Rawlinson p441
Editorial: Historical Radar. E.H. Putley p325
H2S and the navigator. E.L. Killip p399
Historical note on H2S. A.C.B. Lovell p401
History of fighter direction. N. Orgel p411
Memories of radar research. J.D. Cockcroft p327
Oboe: history and development. A.H. Reeves and J.E.N. Hooper p394
The development of centimetre AI. W.E. Burcham p385
The new H2Ss. J.B. Smith p404
The radio war. Sir Robert Cockburn p423
The story of IFF (identification friend or foe). Lord Bowden of Chesterfield p435
The work of TRE in the invasion of Europe. J.W.S. Pringle p340

REVIEWS OF PROGRESS

William Henley, pioneer electrical instrument maker and cable manufacturer, 1813 to 1882. A.F. Anderson p249

STANDARDISATION AND STANDARDS

History of the electrical units and early standards. A.C. Lynch p564

TELECOMMUNICATION

Duplex telegraphy and the artificial line: the beginnings of system modelling. P. Strange p543

TELEVISION

The history of television for public showing in cinemas in the United Kingdom. R.W. Burns p553

TRANSFORMERS

Nickel and chromium plated terminals in current transformer circuits. P.J. Betts p178
Some aspects of transformer core loss. P.H.G. Allen p113

TRANSMISSION LINES

Electrification current and voltage on a cylindrical object in the presence of an ion flow field in an air stream. M. Hara, M. Yashima, T. Tsutsumi and M. Akazaki p59
Reactive nonlinearities in transmission-line models. L.A. Newcombe and J.E. Sitch p95

Lectures

Anderson, A.F. William Henley, pioneer electrical instrument maker and cable manufacturer, 1813 to 1882 p249
Freeman, C. The economics of innovation p213
Hawkins, A.D. The changing technology of electronic components and assemblies p311
O'Hara, S. The evolution of a modern telecommunications network to the year 2000 and beyond p467

Book reviews

A basic guide to power electronics. A. Kloss p262
Acoustic emission. J.R. Matthews (Ed.) p146
Basic instrumentation lecture notes and study guide—Vols. 1 and 2. R.L. Moore p262
Eddy currents in linear conducting media. J.A. Tegopoulos and E.E. Kriezis p466
Electrical insulation. A. Bradwell . p75
From compass to computer. W.A. Atherton p128
Introduction to wave phenomena. Akira Hirose and Karl E. Lonngren p284
Medical imaging systems. A. Maccovski p112
Oxford surveys in information technology. P. Zorkoczy p279
Reliability and maintainability. D.P. Heyman and N.D. Singpurwalla (Eds.) p121
The history of electric wires and cables. R.M. Black p75

Conference reports

Design for testability p241
Design = quality. True or false? p228
The management of innovation p222
The technical review—engineering statements for investors p481
